If the rights presented in the booklet are not uniformly and consistently applied within your long-term care facility, the following actions are suggested:

- Define the problem. Writing it down may help make clear exactly what has happened and why it is wrong. When did it happen? (give times and dates, if possible.) Who was involved or saw the incident? Ask questions of others who may be involved or know about the problem.
- If it seems appropriate, talk the problem over with the staff responsible for taking care of you. Find out the facility procedures for resolving problems or concerns. If this does not seem like a good idea, or if you are not satisfied after you do, choose someone with more authority in the facility to talk to. Consider the Administrator, Director of Nursing, the social worker, your physician or floor nurse.
- Ask for assistance from the resident council. The council may complain on behalf of a resident to any person it considers appropriate.
- If you or the resident council need help solving the problem, you may wish to contact the Long-Term Care Ombudsman Program for assistance. The Long-Term Care Ombudsman Program offers confidential help to residents who have questions, concerns and/or complaints regarding the care they are receiving in their long-term care facility.

The Department of Public Health will investigate your complaint and if a violation has been found, the long-term care facility will be cited and corrective action will be taken.
